

/home/tomek/CLionProjects  
/proi/proi-projekt/src  
/core-lib/include/Event.h

```
graph TD; A["/home/tomek/CLionProjects  
/proi/proi-projekt/src  
/core-lib/include/Event.h"] --> B[exception]; A --> C[string];
```

The diagram illustrates a file dependency structure. At the top, a gray box contains the file path `/home/tomek/CLionProjects/proi/proi-projekt/src/core-lib/include/Event.h`. Two blue arrows point from this box to two separate white boxes below it. The left box is labeled `exception` and the right box is labeled `string`, indicating that the `Event.h` file depends on these two components.

exception

string
